

## Lightweight Plastic Knapsack Sprayer

20 /

Bringing together the most modern technology in plastics and the good old methods of metal working, model 326 combines the best of two ages.

- Model 326 excels by its smooth pumping action. Its brass cylinder has been specially designed to build up pressure with the least exertion. A completely different sensation that its noted instantly and appreciated while the working day in progressing.
- A wide variety of projects in agriculture, horticulture and professional cleaning can be performed due to its state-of-the art design.
- Thanks to its mechanical agitator it can be used to apply wettable powders.
- It has a folding handle, and adjustable nozzle, tank with handle and a tank lid with lance holder clips.
- Like all SWISSMEX- RAPID products, model 326 is designed to support hard day-long use.

Designed and manufactured by experts to apply:

- Herbicides
- Insecticides
- Fertilizers
- Disinfectants
- Diesel
- Wettable Powders
- Oil-based solutions
